

THE COMPLETE HOME JOURNAL BUSINESS™

Territory Lock Option

New Home Journal Business owners have the option to purchase a Territory Lock for a one time fee which limits competition in a local area.

The Territory Lock option will prevent the sale of any additional Home Journal Business startup kits and software to anyone within a 20 mile radius of the business owner's zip/postal code and is available worldwide.

By making an initial investment to secure a local territory, a new business owner can secure additional profits by removing the possibility of any new competitors using our unique Home Journal Business product.

We encourage new business owners to take advantage of the Territory Lock option to help provide long term profits and business growth. You may purchase multiple territories to secure as large an area as needed.

Business owners who purchase the Territory Lock option are subject to the following simple terms and conditions:

- 1.** The business owner must pay a one time additional fee in the amount of \$1,000 to Innovative Software, LLC at the time of purchasing a Home Journal Business Startup kit.
- 2.** The business owner purchasing the Territory Lock option must remain an active business providing documentation services which uses the Home Journal Business product and startup materials. You must contact Innovative Software, LLC every 6 months via email to let us know you remain an active business.
- 3.** The business owner purchasing the Territory Lock option understands that the \$1,000 fee is not refundable for any reason.
- 4.** Any business purchasing a Territory Lock that does not remain active shall no longer hold the territory and it may be offered to another business if requested.

All of the above conditions must be met for the lock option to stay in effect. If any of the above conditions are not met, any Territory Lock option purchased will be null and void. Please contact us for questions and to check availability.
